INDEX TO VOLUME 67

ASCHBACHER, MICHAEL and SEGEV, YOAV. A fixed point theorem for groups acting on finite 2-dimensional acylic simplicial complexes 329

BADDELEY, R. W. Primitive permutation groups with a regular non-abelian normal subgroup 547

BARNETT, CHRIS and WILDE, IVAN. Random times, predictable processes and stochastic integration in finite von Neumann algebras 355

BIRCH, BRYAN and SCOURFIELD, EIRA. Dividing the primes into two subsets with nearly the same number of products 53

BON, JOHN VAN. Affine distance-transitive groups 1

BRIDSON, MARTIN R. On the geometry of normal forms in discrete groups . 596

BROOKES, C. J. B. and BROWN, K. A. Injective modules, induction maps and endomorphism rings 127

BROWN, KENNETH A. and LORENZ, MARTIN. Grothendieck groups of invariant rings: filtrations. 516

BROWN, K. A., *see* BROOKES, C. J. B.

BYOTT, N. P. Cleft extensions of Hopf algebras, II 277

CROMWELL, PETER R. Positive braids are visually prime 384

DEVILLE, ROBERT and GODEFROY, GILLES. Some applications of projective resolutions of identity 183

EVANS, MARTIN J. Presentations of groups involving more generators than are necessary 106

GODEFROY, GILLES, *see* DEVILLE, ROBERT

GREUEL, GERT-MARTIN and PFISTER, GERHARD. Geometric quotients of unipotent group actions 75

HODKINSON, IAN and SHELAH, SAHARON. A construction of many uncountable rings using SFP domains and Aronszajn trees 449

ILYIN, A. A. Lieb–Thirring inequalities on the N-sphere and in the plane, and some applications 159

IZQUIERDO, MILAGROS. Minimal index surface subgroups of non-euclidean crystallographic groups 305

JACKA, S. D. and YOR, M. Inequalities for non-moderate functions of a pair of stochastic processes 649

LORENZ, MARTIN, *see* BROWN, KENNETH A.

PASSMAN, D. S. and ZALESSKII, A. E. Semiprimitivity of group algebras of locally finite simple groups 243

PFISTER, GERHARD, *see* GREUEL, GERT-MARTIN

RENI, MARCO. A graph-theoretical approach to Kleinian groups 200

RHODES, F. and WILSON, S. Connectivity of knight's graphs 225

SCHULTENS, JENNIFER. The classification of Heegaard splittings for (compact orientable surface) $\times S^1$ 425

SCOURFIELD, EIRA, *see* BIRCH, BRYAN

SEGEV, YOAV, *see* ASCHBACHER, MICHAEL

SHELAH, SAHARON, *see* HODKINSON, IAN

VOISIN, CLAIRE. Déformation des syzygies et théorie de Brill–Noether . . 493
VOIT, MICHAEL. Projective and inductive limits of hypergroups . . . 617
WILDE, IVAN, *see* BARNETT, CHRIS
WILSON, S., *see* RHODES, F.
YOR, M., *see* JACKA, S. D.
ZALESSKII, A. E., *see* PASSMAN, D. S.
